

## Job Posting: Senior Field Technician

 **Location: Val-d'Or, Quebec**

Abitibi Metals Corp. (CSE: AMQ | OTCQX: AMQFF | FSE: FW0) is a Canadian mineral exploration company focused on developing the B26 polymetallic project in Quebec. We are seeking a motivated Senior Field Technician to join our team and contribute to our exploration programs in an environment focused on scientific rigor, operational efficiency, innovation, and resource expansion.

Reporting to the Project Geologist, this permanent, full-time position offers a unique opportunity to make a tangible contribution to the development of a leading polymetallic project in the Abitibi Greenstone Belt.

### **Main Responsibilities:**

- Manage exploration drilling activities in the field.
- Manage contractors assigned to prepare access roads and drilling sites in accordance with issued permits.
- Stake drill collars.
- Conduct drill rig and drilling site inspections (before, during, and after).
- Ensure compliance with standards and laws related to forest management and exploration drilling.
- Ensure compliance with health and safety requirements.
- Survey drill hole collars.
- Prepare drill core samples for shipment to the core shack.
- Provide logistical support to geologists.
- Suggest improvements and optimizations to various practices.
- Assist geologists with other related tasks relevant to the progress and success of the project.

### **Qualifications and Experience:**

- College diploma in forestry, mineral technology (geology option), or environmental studies (or other related field). Relevant practical experience may be considered.
- Minimum of 3 years of experience in forest management and field drilling operations.
- Knowledge of the Regulation respecting the sustainable development of forests in the domain of the State (RADF), the Regulation respecting the framework for

activities based on their impact on the environment (REAFIE), the Environment Quality Act (LQE), and the Act respecting occupational health and safety (LSST).

- Valid driver's license required.
- Good communication skills.
- Reliable, resourceful, independent, in good physical condition, organized, and structured.
- Fluency in spoken and written French. Bilingualism (English-French) is an asset.
- Proficiency in Microsoft Office Suite.
- Experience with GIS software is an asset.
- Training in manual felling is an asset.
- Ability to use a differential GPS is an asset.
- Canadian citizens or residents with a valid work permit only.

#### Conditions offered:

- Permanent, full-time position.
- Schedule: 14 -14 (Monday to Sunday), 12 hours per day (6:00 a.m. to 6:00 p.m.).
- Competitive salary, in line with mining industry standards.
- Position based at our various project sites, primarily on the B26 project in the Selbaie area.
- Room and board provided at the company camp.
- Transportation to the various project sites provided.
- Group insurance plan.
- Dynamic team and friendly work environment.
- Priority given to candidates residing in or near Val-d'Or or willing to relocate there.
- Start date: Summer 2026.

#### Why join Abitibi Metals?

- Join a growing exploration company operating in Quebec, a world-class mining jurisdiction.
- Work on a high-potential project with a real impact on resource development.
- Work along within an experienced, accessible, and committed management team.
- Work environment that fosters learning, initiative, and innovation.

#### How to apply?

To apply, send your resume to [careers@abitibimetals.com](mailto:careers@abitibimetals.com).

Join us to fully unlock the potential of the Abitibi Greenstone Belt!

Abitibi Metals is proud to promote equal opportunities. We believe that a diverse team brings a wider range of perspectives and stimulates the innovation needed to build the mines of tomorrow.

We welcome all qualified applications, regardless of origin, identity, or disability, and are committed to providing an inclusive workplace that reflects the communities where we operate.

The application deadline is June 30, 2026.
